What's inside?

Regular, structured practice has been proven to aid the development of long term memory. That's why our team has designed the Maths Mate student workbooks to systematically revise key mathematical concepts on a weekly basis, helping students to efficiently improve their mathematical skills and problem solving abilities. Each booklet contains 8 double sided worksheets per term.

All hardcopy Maths Mate Student Workbooks are available in eBook format from selected bookstores.

MATHS MATE TEXTBOOKS

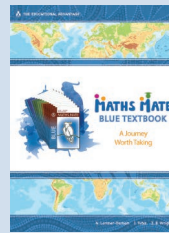

TEXTBOOK BUNDLES

What's inside?

The Maths Mate Textbooks focus on bringing maths to life. The context goes beyond fluency and provides students with a variety of novel contexts where they can apply their newly developed skills.

The textbook bundles consist of 11 booklets, each offering 2-4 weeks work, plus the Maths Mate student workbook. Write-on books allow students to complete significantly more work while saving time.

MATHS MATE SKILL BUILDERS

What's inside?

Maths Mate provides four Skill Builder resources, each spanning two year levels (Orange/Rose for grades 3/4, Yellow/Red for grades 5/6, Blue/Green for years 7/8 and Mauve/Lime for years 9/10) to support quick, easy and helpful remediation for students who have difficulty in any particular mathematical area.

Each Skill Builder file consists of topic-based worksheets containing step-by-step instructions on how to solve a typical question, worked examples, practice questions, a glossary of important terms and maths facts.
